NEW WINE RELEASE

Lua Cheia-Saven has been in production now for more than 10 years and during this time has been working to grow its reputation as a producer of high quality wines.

With the awareness of the constant market modifications as well as the customer needs for fresher and more balanced wines, we are extremely proud to present a new rosé wine from the Douro region:

Andreza Altitude Rosé 2023.

With this wine, Lua Cheia-Saven takes the consumer on a journey to the high altitude vineyards, located at 550 meters high in the Douro region.

2023 Andreza Altitude Rosé, made from the Touriga Nacional and Tinto Cão grape varieties, shows a very pale rosé color and an excellent aromatic intensity. It is young, fresh and very balanced, with a persistent finish. A perfect pairing with seafood dishes, oriental cuisine, white meats and pastas.

The wine is the new member of the Andreza range, that pays tribute to the Douro region. Since time immemorial, the Douro river morphology is marked by "voltas" (river bends), being the Andreza one of the most beautiful.
